

Pig Health **2019**

MANAGING CHANGE

15th March 2019
Hilton Sukhumvit Hotel
Bangkok, Thailand

Our international experts will look at some of the key topical management and disease issues associated with changes that impact the bottom line in modern pig production in Asia.

jojo@positiveaction.co.uk

THE SPEAKERS

Andrey Pavlov

PIC, Russia

Andrey Pavlov was born in 1977 and graduated from the Belgorod Agricultural Academy in 2000 as a veterinarian. He then gained his PhD in swine breeding and genetics in 2006. Since 2013 he has been Genetic and Technical Support Manager for PIC Russia. Previous to this, he held the positions of Chief Geneticist, Production Specialist, Chief Selection Specialist, Selection Specialist and Chief Production Specialist in a variety of companies.

Peter van't Veld

Denkavit Nederlands BV, The Netherlands

Peter van't Veld graduated from the Faculty of Veterinary Medicine, University of Utrecht, The Netherlands, in 1990. His career started with the Dutch Animal Health Service where he was involved with national disease prevention programmes. Then, for 16 years, he was an associate partner in a private veterinary services group where he specialised in the health and management of rearing young animals. In 2007, he joined Denkavit where he is currently their Technical Manager for export markets.

Roselle Falconite-Cudal

Elanco, The Philippines

Dr Roselle Falconite-Cudal has been a veterinarian for over 20 years. She started her career as an epidemiologist and laboratory diagnostician with an integrated swine company then moved into the corporate world to offer swine health and production technical support. She is a Diplomate of the Philippine College of Swine Practitioners and is currently Elanco's Technical Consultant for Swine.

Wouter Depondt

Huvepharma, Belgium

Wouter Depondt graduated in 2001, having specialised in pigs, poultry and rabbits. He started his working career as a poultry practitioner and then spent seven years as the Technical and Commercial Manager for swine at NV Ostyn. Here he was responsible for 100 customers, mainly large independent pig producers. Wouter then moved into the pharmaceutical sector and in 2012 joined Huvepharma where he is now the Global Manager for their portfolio of veterinary products.

THE SPEAKERS

Miquel Collell

MSD Animal Health, Spain

Miquel Collell graduated in veterinary science from the Universitat Autònoma de Barcelona in 1991 and subsequently gained his Masters in swine health and production in 2010. Prior to joining Merck AH, Miquel undertook a variety of roles in the pig sector, including private practice, consultancy, creation of a pig website, university teaching, government work and running technical pig conferences. At Merck AH he is their Global Swine Technical Director.

Gustavo Sa Ribeiro

Trouw Nutrition, a Nutreco Company, Thailand

Gustavo Sa Ribeiro holds degrees in zootechnical engineering from UTAD in Portugal and in international livestock production from CAH, in the Netherlands. He has over eight years' experience in animal nutrition and has worked at Trouw Nutrition in several positions including R&D, Marketing and Technical Manager (monogastric and swine) in different parts of the world, such as The Netherlands, Spain, Mexico, Eastern Europe, Africa and most recently in Asia Pacific.

Mark Eastaugh

Apiam Animal Health, Australia

Mark Eastaugh is a veterinarian and commenced pig consultancy work in the 1980s providing herd health services to small and medium farms in Central Queensland, Australia before joining Bunge Meats P/L as a herd veterinarian. He was responsible for some 40,000 sows and progeny and that led to a long posting as a Technical Manager and then General Manager of the 25,000 sow operations of the KMP/ Culindo/Indotirta herds in Indonesia. He is now a consultant veterinarian for Apiam Animal Health.

Mark Mombarg

Ceva, Malaysia

Mark Mombarg is a Dutch veterinarian who graduated from Utrecht University. He spent a few years in practice before accepting a staff position at the same university. There, he was involved in research, teaching and consultancy, and obtained a Master's degree in veterinary epidemiology. In 1999, he joined the pharmaceutical industry and from 2008 until 2015 he worked at an R&D centre in Spain, developing vaccines against multiple swine diseases. Since 2015, he has worked for Ceva Animal Health as Swine Market Manager Asia.

THE SPEAKERS

Anthony Pearson

LANXESS, UK

Anthony (Tony) Pearson comes from English farming stock and after working at Pauls/BOCM, he became General Manager of the Al-Khalidia turnkey project in Saudi Arabia in 1988. In 1993 he became CEO of Antec South Africa. Following their takeover in 2003, he became Dupont's Global Business Leader for poultry. In 2005/6 he worked with FAO in SE Asia on the avian influenza challenge. Since then he has worked closely with governments helping them counter various disease challenges including AI and ASF. Today, Tony leads the LANXESS Disinfectants Global Technical Marketing Team.

Mike Van Schepdael

Genesisus, Canada

Mike Van Schepdael is Vice President and a founding partner of Genesisus Inc and his daily responsibilities include overseeing sales and marketing activities for Genesisus as well as operational decisions. The company currently has approximately 40,000 sows in nucleus and multiplication in Canada, USA, England, France, Germany, China, Russia, and Spain. Mike was raised on a grain and hog farm in East Selkirk, Manitoba, Canada, and has an Honours degree in agriculture from the University of Manitoba.
